TEA PARTY PATRIOTS
PURSUE YOUR AMERICAN DREAM

The Honorable Mike Crapo
251 East Front Street
Suite 205
Boise, ID 83702

July 24, 2017

Senator Crapo,

Every election cycle since 2010, Congressional Republicans and Republican candidates have campaigned on fully repealing the disastrous government take-over of health care known as Obamacare. This issue has mobilized millions of Americans and given Republicans increased majorities in the United States Senate and House of Representatives – and now the White House.

Under Obamacare, Americans were promised they would: be able to keep their doctors if they liked their doctors, keep their health insurance plan if they liked their health insurance plan, see lower insurance premiums, increased quality of care, and much more. Instead, Obamacare has been a disaster, with millions of Americans being forced off of their plans, forced to find different doctors, forced to pay for more coverage than they might need, forced to pay more for that coverage, and the list goes on and on.

The American people did not give Republicans control of government to simply fix Obamacare. The American people gave Republicans control of government to repeal Obamacare – and failure is not an option.

I am a volunteer for Tea Party Patriots, the nation's largest grassroots tea party organization, and we have been fighting against the government take-over of health care since 2009. Recently, Tea Party Patriots compiled a list of all of our supporters who have supported full repeal of Obamacare over the years. Attached is a list of those supporters in your state. These are your constituents.

We hope this serves as a reminder that we sent you to Washington to repeal Obamacare and deliver us more freedom in the health insurance marketplace.

Sincerely,

Cindy Poulsen
